

Pioneer West Mortgage Investment Corporation

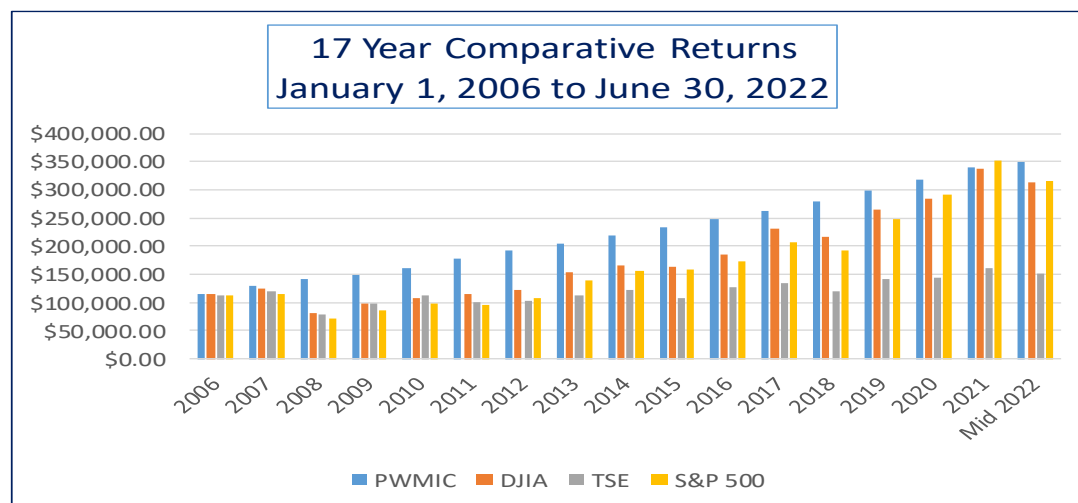

The current economic environment has seen the return of the bear. Meaning the financial markets are trending down due to high inflation and raises in interest rates. In order to weather the economic storm on the horizon there are two important criteria.

Longevity –review the long term performance of any fund or investment product over a minimum of ten years. If the product has less than a ten year track record, it should be considered unproven. **Management** – choose an investment product with managers having a long successful track record in financial and investment management. Managers with less than 20 years experience will not have navigated the sharp drops in the economic cycle and will not have the experience to insulate against all possible risks and keep the fund safe. Pioneer West Mortgage Investment Corporation offers the longevity of a 17 year history with results greater than the stock experts AND management averaging over 35 years of success in financial services.

Pioneer West MIC shares are RRSP/TFSA eligible investments

When you invest in Pioneer West MIC you receive shares that are eligible investments for RRSP's and TFSA's in Canada. Income received in your RRSP is protected from income tax until you withdraw it, so reinvestment of your quarterly dividend compounds your return. Income received in your TFSA is also protected from income tax and can be withdrawn without any tax implications. Holding these shares in your RRSP or TFSA is very efficient from a tax point of view since Pioneer West can do this reinvestment for you.

Not all Trustees offer administration of mortgage investments. Pioneer West is an authorized agent for Canadian Western Trust and can assist you in the transfer process from your current administrator.

Holding these shares in your RRSP is very efficient from a tax point of view—

What are Pioneer West MIC shares?

Mortgages have traditionally been the preferred investment for banks; in fact, Government regulations for Trust companies and Banks require that a large percentage of their assets be based in either conventional or insured mortgages. Mortgages offer higher rates of return than bonds or GICs and are reasonably low risk due to the real estate security and personal guarantee pledged. Private individuals do not typically have the financial means to invest in mortgages given the capital requirements.

The Management team of Pioneer West Mortgage Investment Corporation is pleased to bring a Mortgage Investment opportunity to you.

Pioneer West Acceptance Corporation was founded in 1995 and is a leader in the alternative mortgage market, sourcing and administering a large portfolio of residential and commercial mortgages. It is one of the fastest growing mortgage brokerage firms in Western Canada with offices in Vancouver and Calgary and plans for further expansion. Pioneer West Acceptance Corporation manages Pioneer West Mortgage Investment Corporation and its management team brings expertise in underwriting, collections and portfolio management using proprietary systems and leading technology and is now offering you an opportunity to participate in mortgage investment by way of Pioneer West Mortgage Investment Corporation. (MIC).

Pioneer West MIC offers shares in a government regulated pooled fund whereby BC residents can invest any amount at any time and receive a pro-rata quarterly interest payment with the flexibility of redemption as outlined in the official Offering Memorandum. 100% of a MIC's net income, verified by external audit, is paid out to the shareholders as a dividend. Alternative mortgage interest rates are typically higher than rates the banks offer resulting in higher potential returns to investors. Banks are known to be conservative lenders and their "one product shopping" doesn't meet all demands. Banks are not equity lenders. Herein lies the opportunity.

The current projected annual yield is 6.5% to 7%.

Pooled funds offer less risk and plenty of convenience

Investing in a mortgage pool reduces risk. All mortgages are registered at the appropriate Land Title Registry, providing the necessary legal security. And the impact on the overall return due to any one mortgage default is minimized.

Investing in a mortgage pool saves time and provides peace of mind. There is very little investment of time required by investors, who receive simplified quarterly accounting. The portfolio is fully managed by Accredited Mortgage Professionals, responsible for all facets of the Company's operations for the duration of the investment, including client origination, underwriting risk analysis, full disclosure and mortgage pricing, instructions to solicitors and general portfolio administration.
